

# Maintenance and Facility Managers

## 1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and worker's compensation costs
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work
- ▶ Business owners who want to learn about compliance with MIOSHA

## 2 Why you need this Seminar . . .

- ▶ To reduce disabling injuries and illnesses to employees - and to ensure that every worker goes home safe and healthy every day.
- ▶ To reduce the high direct costs of work-related injuries, which grew to \$42.5 billion nationally in 2000, and indirect costs, which were estimated at an additional \$127 - \$212 billion in 2002. (*2003 Liberty Mutual Safety Index.*)
- ▶ To enhance your company's bottom line. A strong safety and health commitment not only protects workers, it also reduces worker's compensation costs, improves employee morale, and increases production and quality.

## 3 What You'll Learn . . .

Managers responsible for the maintenance of the manufacturing physical plant and/or equipment maintenance and repair are the focus of this seminar. Employees responsible for repair activities would also benefit from this seminar. A comprehensive overview of specific rules within the General Industry Safety Standards is presented which must be considered when these managers are performing their job responsibilities.

### Agenda

*We offer a flexible  
program agenda  
to emphasize the  
topics you  
want most.*

Overview of Specific MIOSHA  
Standards Applying to Maintenance  
and Facilities Managers

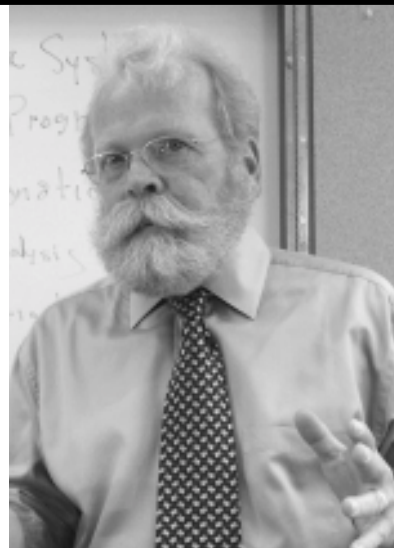

Organizing a Preventative Maintenance  
Program Consistent with MIOSHA  
Requirements Coordination

# Facilitator

Quenten Yoder joined the MIOSHA program in 1985, and serves as an Occupational Safety Consultant in Southwest Michigan. He provides consultation and has conducted hundreds of training programs, workshops and seminars on regulatory requirements and safety and health program administration for the public and private sectors. He has performed workplace safety hazard surveys and safety and health program audits in a wide variety of industries, using a systems approach.

Before joining the Consultation, Education and Training Division, Quenten worked for a municipality where he gained experience in the areas of risk management, safety and health program administration, workers compensation and general liability insurance, human resources, union contract negotiation and administration, and operational supervision.

Quenten holds a Bachelor of Science and Master of Public Administration degrees from Western Michigan University.
